

PROFESSIONAL INFORMATION
D 33.6 Western Herbal Medicine. Complementary Medicine: Discipline-Specific Traditional Claims.

This unregistered medicine has not been evaluated by SAHPRA for its quality, safety or intended use. Health supplements are intended only to complement health or supplement the diet.

SCHEDULING STATUS: S0
1. NAME OF THE MEDICINE
BIOGEN GINKGO BILOBA 200 mg (capsules)
2. QUALITATIVE AND QUANTITATIVE COMPOSITION

Each capsule contains:

Ginkgo biloba L. (Ginkgo)

[Leaf; Extract standardised to 24 % flavones and 6 % lactones]

200 mg

Sugar free

Bovine gelatine capsules

For a full list of excipients, see section 6.1.

3. PHARMACEUTICAL FORM

Capsules

4. CLINICAL PARTICULARS
4.1 Therapeutic indications

BIOGEN GINKGO BILOBA helps to enhance cognitive function and memory in adults. May help to support peripheral circulation.

4.2 Posology and method of administration

Adults:

Take 1 (one) capsule daily with breakfast.

4.3 Contraindications

- If you have a hypersensitivity to Ginkgo Biloba, or any of the excipients listed in 6.1.
- Not recommended in patients that are taking blood coagulation supplements as this may increase the risk of spontaneous bleeding.
- Not recommended during pregnancy and lactation.

4.4 Special warnings and precautions for use

Special care should be taken with BIOGEN GINKGO BILOBA.

If you are taking any prescribed medication, please check with your healthcare provider before taking this medicine.

Please take note of the following:

- The use of BIOGEN GINKGO BILOBA in patients with a pathologically increased bleeding tendency (haemorrhagic diathesis) should discuss dosage recommendations with your relevant healthcare provider.
- BIOGEN GINKGO BILOBA might increase susceptibility to bleeding, and should be discontinued as a precaution prior to scheduled surgeries.
- BIOGEN GINKGO BILOBA not recommended for use in children.

Nutritional supplementation should not replace a balanced diet. Do not exceed the recommended dose without consulting a healthcare provider.

4.5 Interaction with other medicines and other forms of interaction

Interactions can occur. Give your healthcare provider a list of all the medicines, herbs, non-prescription drugs, or dietary supplements you use.

Interactions with Medicines

BIOGEN GINKGO BILOBA may interact with the following medicines, herbs or supplements:

- If BIOGEN GINKGO BILOBA is taken concomitantly with anticoagulants (e.g. phenprocoumon and warfarin) or platelet aggregation inhibitors (e.g. clopidogrel, aspirin and other non-steroidal anti-inflammatory drugs), their effect may be influenced.
- Available studies indicate no interaction between warfarin and *G. biloba* products. Adequate monitoring is however advised when starting, changing or ending *G. biloba* intake or if changing product.
- An interaction study with talinolol indicates that *G. biloba* may inhibit P-glycoprotein at the intestinal level. This may give rise to increased exposure of drugs markedly affected by P-glycoprotein in the intestine such as dabigatran etexilate. Caution is advised if combining BIOGEN GINKGO BILOBA and dabigatran etexilate.
- One interaction study has indicated that the *C_{max}* of nifedipine may be increased by *G. biloba*. In some individuals, increases by up to 100% were observed resulting in dizziness and increased severity of hot flushes.
- Concomitant use of BIOGEN GINKGO BILOBA and efavirenz is not recommended; plasma concentrations of efavirenz may be decreased because of induction of CYP3A4 (see section 4.4).

Interactions with Diseases/Impairments

- Ginkgo biloba has been associated with increased bleeding tendency (haemorrhagic diathesis), patients should monitor blood coagulation levels (see section 4.4).
- Ginkgo biloba may worsen an onset of further seizures in patients with epilepsy.
- Patients with Diabetes should monitor blood sugar levels. Concomitant use of Ginkgo biloba and diabetes medications might have an impact on the efficacy of the patients diabetes medication.

Interactions with Foods

- Vitamins, minerals and nutrients obtained from other sources should be taken into account when prescribing / suggesting BIOGEN GINKGO BILOBA.

4.6 Fertility, pregnancy and lactation

BIOGEN GINKGO BILOBA is contraindicated in pregnancy (see section 4.3). It may impair platelet aggregation and increase the tendency for bleeding. Animal studies are insufficient with respect to reproductive toxicity (see section 5.3).

It is unknown whether *G. biloba* or its metabolites are excreted in human breast milk and the risk to new-borns or infants cannot be excluded. In the absence of sufficient data, the use during lactation is not recommended.

No specific studies with *G. biloba* in humans have been conducted to evaluate effects on fertility. In a study in female mice effects on fertility were seen (see section 5.3).

4.7 Effects on ability to drive and use machines

No studies on the effects on the ability to drive or use machinery have been performed. Patients should exercise caution before driving or use of machinery until they are reasonably certain BIOGEN GINKGO BILOBA does not adversely affect their performance.

4.8 Undesirable effects

The list below provides information on undesirable effects identified from literature, and categorised by system organ class and frequency. Frequencies are defined as: very common (> 1/10), common (≥ 1/100, < 1/10), uncommon (> 1/1 000, < 1/100), rare (> 1/10 000, < 1/1 000), very rare (> 1/10 000).

Blood and lymphatic system disorders

Bleeding of individual organs have been reported (eye, nose, cerebral and gastrointestinal haemorrhage). The frequencies are not known.

Nervous system disorders

Very common: headache Common: dizziness

Gastrointestinal disorders

Common: diarrhoea, abdominal pain, nausea, vomiting

Immune system disorders

Hypersensitivity reactions (allergic shock) may occur. The frequencies are not known.

Skin and subcutaneous tissue disorders

Allergic skin reactions (erythema, oedema, itching and rash) may also occur. The frequencies are not known.

If other adverse reactions not mentioned above occur, a doctor or a pharmacist should be consulted.

Reporting of suspected adverse reactions

Reporting suspected adverse reactions after authorisation of the medicine is important. It allows continued monitoring of the benefit/risk balance of the medicine. Healthcare providers are asked to report any suspected adverse reactions to SAHPRA via the "6.04 Adverse Drug Reactions Reporting Form", found online under SAHPRA's publications: <https://www.sahpra.org.za/Publications/Index8>.

4.9 Overdose

No case of overdose has been reported. Treatment of overdose is symptomatic and supportive.

5. PHARMACOLOGICAL PROPERTIES

BIOGEN GINKGO BILOBA helps to enhance cognitive function and memory in adults. May help to support peripheral circulation.

Pharmacodynamic properties

There is a vast literature describing basic scientific research relating to the effects of ginkgo. Several pharmacological activities have been documented for ginkgo leaf extracts and/or their constituents. These include effects on behaviour, learning and memory, cardiovascular activities, effects on blood flow and antioxidant activity. The most important active principles of ginkgo extract include the ginkgo flavonoid glycosides and the terpene lactones. Ginkgo has been described as having polyvalent action, i.e. the combined activity of several of its constituents is likely to be responsible for its effects.

Pharmacokinetic properties

The pharmacokinetics of constituents of standardised extracts of ginkgo leaf are reasonably well documented. Mean bioavailability following oral administration of ginkgo extract 120 mg to fasting healthy volunteers were 80%, 88% and 79%, respectively. Food intake increased the time taken to reach peak concentration (suggesting slower absorption), but did not affect bioavailability. Peak concentrations of ginkgolides observed in fasting volunteers ranged from 16.5 to 33.3 ng/mL, and from 11.5 to 21.1 ng/mL in volunteers who had consumed food.

Preclinical safety data

Ginkgo has been tested for its cognitive enhancing effects in healthy (i.e. cognitively intact) individuals in addition to investigations into its effects in patients with cognitive deficiency. The effects of standardised extracts of ginkgo have been investigated in patients with peripheral arterial occlusive disease. Ginkgo in this condition may improve blood flow.

6. PHARMACEUTICAL PARTICULARS
6.1 List of excipients

Corn starch
Magnesium stearate
Silica
Sugar free

6.2 Incompatibilities

Not applicable

6.3 Shelf life

24 Months

6.4 Special precautions for storage

Protect from moisture and store at or below 25 °C.
Keep container in original packaging until required for use.
Do not use if you notice any visible signs of deterioration.
KEEP OUT OF REACH OF CHILDREN.

6.5 Nature and contents of container

White capsules containing a brown powder, packed in a white PET bottle with a white PET screw cap.
Pack-size: 30 capsules

6.6 Special precautions for disposal

No special requirements.

PATIENT INFORMATION LEAFLETSCHEDULING STATUS: **SO**

BIOGEN GINKGO BILOBA 200 mg (capsules)

Ginkgo biloba L. (Ginkgo)

Sugar free

D 33.6 Western Herbal Medicine. Complementary Medicine: Discipline-Specific Traditional Claims.

This unregistered medicine has not been evaluated by SAHPRA for its quality, safety or intended use.

Read all of this leaflet carefully because it contains important information for you.

BIOGEN GINKGO BILOBA is available without a doctor's prescription and assists in improving circulation to the brain and lower extremities. Nevertheless, you still need to use BIOGEN GINKGO BILOBA carefully to get the best results from it.

- Keep this leaflet. You may need to read it again.
- Do not share BIOGEN GINKGO BILOBA with any other person.
- Ask your healthcare provider or pharmacist if you need more information or advice.

What is in this leaflet

1. What BIOGEN GINKGO BILOBA is and what it is used for.
2. What you need to know before you use BIOGEN GINKGO BILOBA.
3. How to use BIOGEN GINKGO BILOBA.
4. Possible side effects.
5. How to store BIOGEN GINKGO BILOBA.
6. Content of the pack and other information.

1. What BIOGEN GINKGO BILOBA is and what it is used for

BIOGEN GINKGO BILOBA helps to enhance cognitive function and memory in adults. May help to support peripheral circulation.

2. What you need to know before you use BIOGEN GINKGO BILOBA

- Do not use BIOGEN GINKGO BILOBA:**
- If you are hypersensitive (allergic) to Ginkgo Biloba or any of the ingredients of BIOGEN GINKGO BILOBA (see section 6).
 - If you are pregnant or breastfeeding your baby.

Warnings and precautions

Caution is advised in patients with a pathologically increased bleeding tendency (haemorrhagic diathesis). Discuss dosage recommendations with your relevant healthcare provider.

- BIOGEN GINKGO BILOBA might increase susceptibility to bleeding, and should be discontinued as a precaution prior to scheduled surgeries.

Not recommended for use in children under the age of 18 years.

Nutritional supplementation should not replace a balanced diet. Do not exceed the recommended dose without consulting a healthcare provider.

Children and adolescents

BIOGEN GINKGO BILOBA is not recommended for use in children under the age of 18 years.

Other medicines and BIOGEN GINKGO BILOBA

Interactions can occur. Give your healthcare provider a list of all the medicines, herbs, non-prescription drugs, or dietary supplements you use.

Interactions with Medicines

BIOGEN GINKGO BILOBA may interact with the following medicines, herbs or supplements:

- If you are taking anticoagulants (e.g. phenprocoumon, dabigatran and warfarin) or platelet aggregation inhibitors (e.g. clopidogrel, aspirin and other non-steroidal anti-inflammatory drugs), their effect may be influenced.
- If you take other medicines that affect blood pressure (e.g. nifedipine).
- If you take anti-viral medication (e.g. efavirenz), the efficacy thereof can be decreased.

BIOGEN GINKGO BILOBA and interactions with Diseases or Impairments

- Ginkgo biloba has been associated with increased bleeding tendency (haemorrhagic diathesis), patients should monitor blood coagulation levels (see section 4.4).
- Ginkgo biloba may worsen an onset of further seizures in patients with epilepsy.
- Patients with Diabetes should monitor blood sugar levels. Concomitant use of Ginkgo biloba and diabetes medications might have an impact on the efficacy of the patients diabetes medication.

BIOGEN GINKGO BILOBA with food and drink

Use this product in conjunction with food as part of a healthy, balanced diet, not as a substitute for such.

Pregnancy, breastfeeding and fertility

Do not use BIOGEN GINKGO BILOBA if you are pregnant or breastfeeding, or think you may be pregnant or are planning to have a baby.

BIOGEN GINKGO BILOBA may increase the tendency for bleeding and is contraindicated in pregnancy (see section 2). It is unknown whether *G. biloba* is excreted in human breast milk and use during lactation is not recommended. Although no specific human fertility studies with *G. biloba* have been conducted, ovarian toxic effects were reported in a study on mice.**Driving and using machines**

No studies on the effects on the ability to drive and use machinery have been performed. Exercise caution before driving or using machinery until you are reasonably certain BIOGEN GINKGO BILOBA does not adversely affect your performance.

3. How to use BIOGEN GINKGO BILOBA

Do not share medicines prescribed to you with any other person.

Always use BIOGEN GINKGO BILOBA exactly as described in this leaflet or as your healthcare practitioner has told you. Check with your healthcare practitioner if you are not sure.

Adults: take one (1) capsule daily before breakfast, or as recommended by your healthcare provider.

Additional information on special populations:

Elderly: No specific studies have been performed in the elderly, but according to clinical experience dosage adjustment is not required when treating otherwise healthy, elderly patients.

Children and adolescents: Not recommended for use in children under the age of 18 years.

4. Possible side effects

BIOGEN GINKGO BILOBA can have side effects.

Not all side effects for BIOGEN GINKGO BILOBA are included in this leaflet. Should your general health worsen or if you experience any untoward effects while taking BIOGEN GINKGO BILOBA, please consult your doctor, pharmacist, or other healthcare practitioner for advice.

If any of the following happens, stop taking BIOGEN GINKGO BILOBA and tell your doctor immediately, or go to the casualty department at your nearest hospital:

- swelling of the hands, feet, ankles, face, lips and mouth or throat, which may cause difficulty in swallowing or breathing;
- rash or itching;
- fainting.

These are very serious side effects. If you have them, you may have had a serious reaction to BIOGEN GINKGO BILOBA. You may need urgent medical attention or hospitalisation.

Tell your doctor if you notice any of the following:

- Increased bleeding time, or bleeding of eyes or nose.
- Headache or dizziness.
- Diarrhea, abdominal pain, nausea or vomiting.

If you notice any side effects not mentioned in this leaflet, please inform your doctor or pharmacist.

Reporting of side effectsIf you experience side effects, inform your doctor or pharmacist. You can also report side effects to SAHPRA via the "6.04 Adverse Drug Reactions Reporting Form", found online under SAHPRA's publications: <http://www.sahpra.org.za/Publications/Index/8>. By reporting side effects, you can help provide more information on the safety of BIOGEN GINKGO BILOBA.**5. How to store BIOGEN GINKGO BILOBA**

- Store all medicines out of reach of children.
- Store in a cool, dry place at or below 25 °C.
- Do not use after the expiry date stated on the label.
- Return all unused medicine to your pharmacist.
- Do not dispose of unused medicine in drains or sewerage systems (e.g. toilets).

BIOGEN GINKGO BILOBA 200 mg (kapsules)

Ginkgo biloba L. (Ginkgo)

Suikerfry

D 33.6 Westerse Kruie Medisyne. Komplementêre Medisyne: Dissipline-Spesifieke Tradisionele Bewerings.

Hierdie ongeregistreerde medisyne is nie deur SAHPRA vir gehalte, veiligheid of beoogde gebruik geëvalueer nie.

Lees hierdie inligtingsblad noukeurig deur want dit bevat belangrike inligting.

BIOGEN GINKGO BILOBA is beskikbaar sonder 'n dokter se voorskrif en dra by tot verbetering van sirkulasie na die brein en onderste ledemate. U moet BIOGEN GINKGO BILOBA nogtans versigtig gebruik ten einde die beste resultate te verkry

- Hou hierdie inligtingsblad. Dit kan nodig wees dat u dit weer lees.
- Moenie BIOGEN GINKGO BILOBA met enige ander persoon deel nie.
- Vra u gesondheidsorgpraktisyn of apteker indien u meer inligting of advies nodig het.

Wat is in hierdie pamphlet

1. Wat is BIOGEN GINKGO BILOBA en waaroor dit gebruik word.
2. Wat u moet weet voordat u BIOGEN GINKGO BILOBA gebruik.
3. Hoe om BIOGEN GINKGO BILOBA te gebruik.
4. Moontlike newe-effekte.
5. Berging van BIOGEN GINKGO BILOBA.
6. Inhoud van die verpakking en ander inligting.

1. Wat is BIOGEN GINKGO BILOBA en waaroor dit gebruik word

BIOGEN GINKGO BILOBA help om kognitiewe funksie en geheue by volwassenes te verbeter. Kan help om perifere sirkulasie te ondersteun.

2. Wat u moet weet voordat u BIOGEN GINKGO BILOBA gebruik**Moenie BIOGEN GINKGO BILOBA neem nie:**

- Indien u hipersensitief (allergies) is vir Ginkgo Biloba of vir enige van die bestanddele van BIOGEN GINKGO BILOBA (sien afdeling 6).
- Indien u swanger is of u baba borsvoed.

Waarskuwings en voorsorgmaatreels

- Indien u 'n patologie verhoogde bloedingsneiging het (hemorragiese diatese) word dit aanbeveel om dosisaanbevelings met u relevante gesondheidsorgverskaffer te bespreek.
- BIOGEN GINKGO BILOBA kan vatbaarheid vir bloeding verhoog, en moet as 'n voorsorgmaatreel gestaak word voor geskeduleerde operasies.
- Moet nie vir kinders onder die ouderdom van 18 jaar toegedien word nie.

Voedselaanvulling behoort nie 'n gebalanseerde dieet te vervang nie. Moet nie die aanbevele dosis oorskry sonder om 'n gesondheidsorgverskaffer te raadpleeg.

Kinders en adolescentes

BIOGEN GINKGO BILOBA word nie vir kinders onder die ouderdom van 18 jaar aanbeveel nie.

Die neem van ander medisyne saam met BIOGEN GINKGO BILOBA

Interaksies kan voorkom. Gee u gesondheidsorgverskaffer 'n lys van al die medisyne, kruie, nie-voorskrifmedisyne of dietaanvullings wat u gebruik.

Interaksies met medisyne

BIOGEN GINKGO BILOBA kan interaksies hê met die volgende medisyne, kruie of aanvullings:

- As u antikoagulantie (bv. fenprocoumon, dabigatran en warfarin) of bloedplaatjie-aggregasie-inhibeerders (bv. clopidogrel, aspirine en ander nie-steroidale anti-inflammatories middels), kan die effek daarvan beïnvloed word.
- As u ander medisyne gebruik wat bloeddruk beïnvloed (bv. nifedipien).
- As u antivirale medikasie (bv. efavirenz) neem, kan die doeltreffendheid daarvan verminder word.

BIOGEN GINKGO BILOBA en interaksies met siektes of gebreke

- Ginkgo biloba is geassosieer met verhoogde bloedingsneiging (hemorragiese diatese), pasiënte moet bloedstollingsvlakte moniter (sien afdeling 4.4).
- Ginkgo biloba kan 'n aanvang van verdere aanvalle by pasiënte met epilepsie vererger.
- Diabetes moet bloedsuikervlakte moniter. Gelykydige gebruik van Ginkgo biloba en diabetesmedikasie kan 'n impak hê op die doeltreffendheid van u medikasie.

BIOGEN GINKGO BILOBA saam met kos en drankgoed

Gebruik hierdie produk saam met kos as deel van 'n gesonde, gebalanseerde dieet, nie as 'n plaasvervanger daarvoor nie.

Swangerskap, borsvoeding en vrugbaarheid

Moenie BIOGEN GINKGO BILOBA gebruik indien u swanger is, borsvoed, vermoed dat u swanger is, of van plan is om 'n baba te hê nie.

BIOGEN GINKGO BILOBA kan die neiging tot bloeding verhoog en is teenaangedui tydens swangerskap (sien afdeling 2). Dit is onbekend of *G. biloba* in menslike borsmelk uitgeskei word en gebruik tydens laktasie word nie aanbeveel nie. Alhoewel geen spesifieke menslike vrugbaarheidstudies met *G. biloba* uitgevoer is nie, is toksiese eienskappe van die eiervlokkie in 'n studie op muise gerapporteer.**Bestuur en die gebruik van masjinerie**

Geen studies is uitgevoer nadat die uitwerking op die vermoed om te bestuur van masjinerie te gebruik nie. Wees asseblief versigtig totdat u seker is dat u vermoed om sulke aktiwiteite uit te voer nie beïnvloed word nie.

3. Hoe om BIOGEN GINKGO BILOBA te gebruik

Moenie medisyne wat u vaar voorgeskreif is met enige ander persoon deel nie.

Gebruik BIOGEN GINKGO BILOBA presies soos aanbeveel in hierdie pamphlet, of soos aanbeveel deur u gesondheidsorgpraktisyn. Raadpleeg u gesondheidsorgpraktisyn indien u nie seker is nie.

Volwassenes: neem een (1) kapsule daagliks voor ontbyt, of soos aanbeveel deur u gesondheidsorgpraktisyn.

Addisionele inligting vir spesiale populasies:

- Bejaardes: Geen spesifieke studies is op bejaardes uitgevoer nie, maar volgens kliniese ervaring is dosisaanpassing nie nodig by die behandeling van gesonde, ouer pasiënte nie.

Kinders en adolescentes: Nie aanbeveel vir gebruik in kinders jonger as 18 jaar nie.

4. Moontlike newe-effekte

BIOGEN GINKGO BILOBA kan newe-effekte hê.

Nie alle newe-effekte vir BIOGEN GINKGO BILOBA is ingesluit in hierdie pamphlet nie. Indien u algemene gesondheid vererger, of as u enige slegte ongewone reaksieservaar tydens die gebruik van BIOGEN GINKGO BILOBA, raadpleeg u dokter, apteker, of ander gesondheidsorgpraktisyn vir advies.

As een van die volgende gebeur, hou op met die gebruik van BIOGEN GINKGO BILOBA en raadpleeg u dokter onmiddellik of gaan na die ongevalle afdeling van u naaste hospitaal:

- swelling van u hande, voete, enkels, gesig, lippe en mond of keel, wat dit moeilik kan maak om te sluk of asem te haal;
- velutslag of gejuk;
- floutes.

Hierdie is baie ernstige newe-effekte. Indien jy dit het, mag u 'n ernstige allergiese reaksie op BIOGEN GINKGO BILOBA gehad het. U mag dringende mediese bystand van hospitalisasie nodig hê.

Sê vir u dokter indien u enige van die volgende opmerk:

- Verhoogde bloedingsyst, of bleeding van oë en neus.
- Hoofpyn of duiselingheid.
- Diarree, bulkpyn, haartheid of braking.

Lig asseblief u dokter of apteker in indien u enige newe-effekte opmerk wat nie in hierdie inligtingstuks genoem word nie.

Rapportering van newe-effektePraat met u dokter of apteker as u newe-effekteervaar. U kan ook newe-effekte te SAHPRA aanmeld via die "6.04 Adverse Drug Reactions Reporting Form", wat aanlyn gevind kan word onder SAHPRA se publikasies: <http://www.sahpra.org.za/Publications/Index/8>. Deur newe-effekte aan te meld, kan u help om meer inligting te verskaf oor die veiligheid van BIOGEN GINKGO BILOBA.**5. Hoe om BIOGEN GINKGO BILOBA te stoor**

- Bére alle medisyne buite die bereik van kinders.
- Bére by of onder 25 °C en beskerm teen vog.
- Moenie gebruik nie daar vervaldaatum op die etiket nie.
- Neem alle ongebruikte medisyne na u apteker terug.
- Moenie ongebruikte medisyne in afvoeropsligte (bv. toilette) weggooi nie.

6. Inhoud van die verpakking en ander inligting**Wat BIOGEN GINKGO BILOBA bevat**

Die aktiewe bestanddeel in elke kapsule is:

Ginkgo biloba L. (Ginkgo)

[Blaar; Ekstrak gestandaardeer tot 24 % flavone en 6 % laktone]

200 mg

Die ander bestanddeel is mieliestyksel, magnesiumstearaat, silika.

BIOGEN GINKGO BILOBA is suikerfry

Hoe BIOGEN GINKGO BILOBA lyk en die inhoud van die verpakking

Wit harde gelatin kapsules wat 'n bruin poeier bevat, verpak in 'n wit PET bottel met 'n wit PET skroefdop.

Verpakingsgrootte: 30 kapsules.
